Course Number
MTH-063-01
Course Description
Sustainability addresses the idea of a global society founded on respect for nature, universal human rights, economic justice, and a culture of peace. It is of vital importance and will affect everyone. Mathematics is essential in identifying and analyzing the challenges. Through a sequence of sustainability and mathematical concepts, exercises, and projects, you will be brought along on this journey and confront global challenges to develop an understanding of the complex environmental, economic, and sociocultural interlinkages, and to empower yourself to become an active citizen.
Academic Term
22/SP
Instructor
Wang, Jue
Location & Meeting Time
Bailey Hall-201+ M/W/F 01:50PM-02:55PM LEC
Credits
1.00
Capacity
26
Total Students
24
Common Curriculum
QMR Quant & Math Reasoning
Interdisciplinary Programs
Science, Medicine & Tech in Cu
Academic Department
Mathematics
Field Of Study
Mathematics (MTH)
