

Course Number

AST-210-01

Course Description

A survey of the physical properties, dynamics, and distribution of galaxies. Topics include the content, formation, and evolution of the Milky Way and other galaxies; the large-scale distribution of galaxies; interactions between galaxies; dark matter; active galactic nuclei; and quasars.

Academic Term

22/WI

Instructor

Koopmann, Rebecca

Location & Meeting Time

Integrated Science & Engineering Complex-106 M/W/F 01:50PM-02:55PM LEC

Credits

1.00

Capacity

18

Total Students

8

Academic Department

Physics and Astronomy

Field Of Study

Astronomy (AST)
