Course Number MER-439-01 **Course Description** A capstone, project-oriented course in the thermal-fluids area of mechanical engineering that applies design techniques to the design of thermal fluid processes and systems. Students work in teams on projects that involve the design of piping systems, heat exchangers, thermodynamic cycles, and other thermal fluid systems. Academic Term 22/WI Instructor Wilk, Richard Location & Meeting Time Integrated Science & Engineering Complex-220 M/W 03:05PM-04:45PM LEC Petition Y Credits 1.00 Capacity 16 **Total Students** 7 Common Curriculum WAC Writing Across Curriculum WS Senior Writing Academic Department Mechanical Engineering Field Of Study Mechanical Engineering (MER)
