Course Number ECE-248-01 **Course Description** Semiconductors: theory of operation of diodes and transistors; circuit models; basic electronic circuits and amplifiers: transfer characteristics and inverters. Includes a weekly lab. Academic Term 22/SP Instructor Yang, Zheng Location & Meeting Time Integrated Science & Engineering Complex-150 T/TH 10:55AM-12:45PM LEC Petition Y Credits 1.00 Capacity 24 **Total Students** 27 Academic Department Electrical & Computer Engineer Field Of Study Electrical & Computer Engineer (ECE)
