Course Number GEO-117-01 **Course Description** An introduction to the geologic processes causing floods, earthquakes, volcanoes, landslides, and other natural hazards and how hazards affect people and society. The course will include discussion of major events in the geologic and historical record as well as future hazard potential. We will assess the risks humans face in different regions, including local hazards, our contribution to geologic hazards, and how we can minimize and cope with future events. Academic Term 20/FA Instructor Garver, John Location & Meeting Time Synchronous Online-ONLI M/W/F 12:20PM-01:25PM LEC Petition Ν Credits 1.00 Capacity 22 **Total Students** 17 Additional Information http://www.union.edu/Geology Common Curriculum SCLB Science w/Lab WAC Writing Across Curriculum Interdisciplinary Programs Science, Medicine & Tech in Cu Environmental Science & Policy Academic Department Geology Field Of Study Geology (GEO)
