

Course Number

ECO-376-01

Course Description

This seminar explores different perspectives on current global economic issues. A review of the recent debate on globalization provides a framework for discussion of a variety of issues related to international trade and the international financial system. Topics covered may include: international trade and the environment, international trade and labor standards, regionalism vs. world trade, international financial crises, reforming the global financial architecture, and international capital flows and developing countries.

Academic Term

21/FA

Instructor

Sener, Mehmet

Location & Meeting Time
