

Course Number

ECE-343-01

Course Description

Traveling waves: transmission lines; electrostatics; magnetostatics; applications to engineering problems; solutions by analytical and numerical techniques.

Academic Term

22/SP

Instructor

Buma, Takashi

Location & Meeting Time

Integrated Science & Engineering Complex-150 T/TH 09:00AM-10:45AM LEC

Petition

Y

Credits

1.00

Capacity

14

Total Students

11

Academic Department

Electrical & Computer Engineer

Field Of Study

Electrical & Computer Engineer (ECE)
