

Course Number

BIO-321-01

Course Description

An introduction to the study of amphibians and reptiles, both extremely diverse groups. Topics will include structural and functional characteristics, reproductive adaptations, and evolutionary relationships both within the Amphibia and Reptilia groups and among other vertebrate groups. Special emphasis will be given to local fauna.

Academic Term

22/FA

Instructor

Pytel, Barbara

Location & Meeting Time

Integrated Science & Engineering Complex-222+ M/W 01:50PM-02:55PM LEC

Credits

1.00

Capacity

18

Total Students

16
