

Course Number  
GEO-203-01  
Course Description

Modern limnology and the record of environmental change as recorded in the physical and chemical properties of lake water and lake sediments. Includes a term-long research project on two local lakes, and the interpretation of the proxy paleoenvironmental indicators contained in sediment cores from these lakes.

Academic Term

20/WI

Instructor

Rodbell, Donald

Location & Meeting Time

Olin Building-306+ T/TH 10:55AM-12:40PM LEC

Petition

N

Credits

1.00

Capacity

19

Total Students

20
