

Course Number

ECE-371-01

Course Description

An introduction to the basic theory for design and analysis of radar systems; range equation; signal design and models; signal processing; high resolution imaging; range and Doppler information

Academic Term

20/WI

Instructor

Pappu, Chandra

Location & Meeting Time

Karp Hall-004+ M/W/F 09:15AM-10:20AM LEC

Petition

N

Credits

1.00

Capacity

24

Total Students

20

Additional Information

<http://ece.union.edu>

Academic Department

Electrical & Computer Engineer

Field Of Study

Electrical & Computer Engineer (ECE)
