

Course Number

HST-258-01

Course Description

This course is a history of how science, medicine, and technology interacted with Nazism, beginning with the background of the First World War and Weimar Republic, through the Third Reich, and continuing through to its legacy during the post-Second World War era. This story extends beyond Germany, both because of the international effects of this interaction, and through comparisons with science, medicine, and technology under other regimes and in other cultures.

Academic Term

21/WI

Instructor

Walker, Mark

Location & Meeting Time

Olin Building-115+ T/TH 11:15AM-01:00PM LEC
