

Course Number

BIO-362-01

Course Description

Function of neurons, nervous system organization, sensory and motor systems, and neural plasticity. Emphasis is placed on the experiments that have led to our current understanding.

Academic Term

21/WI

Instructor

Feller, Kathryn

Location & Meeting Time

College Park Hall-C108 T/TH 09:05AM-10:50AM LEC

Petition

Y

Credits

1.00

Capacity

24

Total Students

21

Additional Information

<http://www.union.edu/Biology>

Common Curriculum

SET Science, Engineering Tech

SCLB Science w/Lab

Academic Department

Biology

Field Of Study

Biology (BIO)
