

Course Number

ECE-222-01

Course Description

Electrical quantities, circuit principles, analysis and response of basic circuits, semiconductor physics, diodes, transistors, and operational amplifiers. Includes a weekly lab.

Academic Term

21/SP

Instructor

Spinelli, John

Location & Meeting Time

Synchronous Online-ONLI M/W/F 11:00AM-12:05PM LEC

Credits

1.00

Capacity

24

Total Students

23

Additional Information

<http://ece.union.edu>

Academic Department

Electrical & Computer Engineer

Field Of Study

Electrical & Computer Engineer (ECE)
