

Course Number

ECE-343-01

Course Description

Traveling waves: transmission lines; electrostatics; magnetostatics; applications to engineering problems; solutions by analytical and numerical techniques.

Academic Term

21/SP

Instructor

Buma, Takashi

Location & Meeting Time

Integrated Science & Engineering Complex-150 T/TH 09:15AM-11:00AM LEC

Hybrid-HYBR LEC

Petition

Y

Credits

1.00

Capacity

15

Total Students

12

Additional Information

<http://ece.union.edu>

Academic Department

Electrical & Computer Engineer

Field Of Study

Electrical & Computer Engineer (ECE)
