Course Number BIO-292-02 **Course Description** The Biology Research Practicum is designed to allow students to engage in research in the biological sciences early in their undergraduate careers. Students will work under the direction of a member of the biology faculty, often collaborating with seniors who are completing their research. Expectations include a minimum of four hours per week of lab work and attendance at Biology Department seminars and/or weekly lab meetings. This course requires advance permission of the individual research advisor, who may have additional requirements. To receive Pass/Fail credit equivalent to one course, the student must earn three terms of passing grades for the practicum experience. Academic Term 21/SP Instructor Feller, Kathryn Location & Meeting Time To Be Announced Credits 0.00 Capacity 25 **Total Students** 1 Additional Information http://www.union.edu/Biology Academic Department
