

Course Number

BME-495-01

Course Description

A capstone design experience in which students work in teams on biomedical Engineering design problems. Each team will use design methodologies and techniques to produce a complete and detailed design for a designated biomedical Engineering client.

Academic Term

21/FA

Instructor

Currey, Jennifer

Cotter, Shane

Location & Meeting Time

Wold Center-010+ M/W/F 10:30AM-11:35AM LEC

Credits

1.00

Capacity

28

Total Students

22

Common Curriculum

WAC Writing Across Curriculum

Academic Department

Biomedical Engineering

Biology

Electrical & Computer Engineer

Field Of Study

Biomedical Engineering (BME)
