

Course Number

ENS-100-01

Course Description

An introduction to the study of environmental studies from both a policy and a scientific perspective. Topics include human population dynamics, pollution and remediation, global warming, acid rain, and biodiversity. Fieldwork during lab periods involves the investigation of local environmental problems. This course is intended for sophomores in the environmental studies program, but it is open to all students.

Academic Term

21/FA

Instructor

Verheyden-Gillikin, Anouk

Location & Meeting Time

Olin Building-306+ M/W/F 11:45AM-12:50PM LEC

Credits

1.00

Capacity

24

Total Students

26

Common Curriculum

SCLB Science w/Lab

Interdisciplinary Programs

Science, Medicine & Tech in Cu

Environmental Science & Policy
